

## REGION III REPORT

JULY 2025

The last quarter has been a trying time for Region III. Several of our members have left this earth and left us with quite a void. We have a state and several chapters without leadership. It is being more difficult to find members who are physical able to take on these roles, members who do computers and other reasons they just don't want too. I have been working hard by phone and email training officers and trying to get them ready for convention. I know it will all come together but has been difficult.

Wynella Bethards

AVVA Region III Director
