

Region Three Director Quarterly Report

April 12, 2023

Veterans Against Drugs Committee Chair Dave Simmons provided an online ten-hour course for the members of this committee. This was to instruct your children, grandchildren and anyone who you are friends with to help their children become aware of their surroundings as they go about their normal lives. The class lasted for a period of two weeks to be taken at your own convenience. There were at least twelve speakers and covered topics. At least two of the speakers were kidnapped when they were children but managed to escape from that life. They were teaching other how to stay safe and never be in the situation they were in at the time of their kidnapping.

Always walk in pairs. The people that are kidnapping children look for those that are walking alone.

1. May be sure you are paying attention to your surroundings. Never walk with the ear buds in your ears and not be able to hear sounds outside of your music.
2. Never talk to strangers.
3. Be mindful of vans that come up from behind you, these are the ones that kidnapper will use to take their prey from the streets.
4. Many of the kidnapper would take the children into their vans, then drug them to keep them sedated until they would reach their destination.
5. Drugging the children in order to use them for sex for as long as they are viable.
6. Some of the children will be used for organ donations which is a money maker for the kidnapper.

The course was a good course on educating the public about the dangers that are in society and that could affect their children.

I continue to report to the members of Region Three vital information I receive about updates on Agent Orange, Health care, Senate and House Bill that are coming up and need the attention of the members to contact their Representatives and Senators to vote as they would want them to.

Reminding the Region Three members that we need nominations from them for the awards that will be given out at the National Convention in August and what the deadline is for that and where to find the list and paperwork for it. Reminding them too that if they are incorporated to get their tax information into Nancy Montgomery so they will be legal to vote in the elections.

Hope Summers
